Reading Guide

The gross monthly disposable income reported by the surveyed intermodal cyclists is **approximately €2,850**, based on the median.

By refining the analysis at the level of travel modes, cross-referenced with professional situations and Socio-Professional Categories (PCS), certain trends emerge. Electric scooter users, and bike and micromobility services have an income ranging **from €2,400 to €2,625**, compared to **€2,850** for classic bike users and kick scooters. Electric bikes and folding bikes stand out with median incomes of **€3,400** and **€4,050**, respectively.
