- RT_3 Weekday (10AM to 3PM)
- RT_4 Weekday (3PM à 8PM)
- RT_5 Weekday (8PM to 12AM)
- RT_6 Week-end

Reading Guide

Six periods were derived from the temporal analysis of flows. These time intervals describe the frequency of each of the 318 stations in the region and their overall network. They highlight the peak hours of traffic observed **between 6AM and 9AM**, as well as **between 3PM and 7PM**, with several intermediate peaks, including at midday on Wednesdays and on weekends.
