Collected responses	Complete responses	Complexe and unique responses	Complete, unique, and cleaned responses	Including a journey combining transit and light individual mobility	Including the geographical coordinates of each point
	Exclusion 1: Partial responses	Exclusion 2: Duplicates	Exclusion 3: Responses under ten minutes	Exclusion 4: Missing travel modes	Exclusion 5: Incorrect or incomplete addresses

Reading Guide

The cleaning process of the valid responses from the questionnaire is based on **5 exclusion criteria**: partial responses, duplicates, inappropriate response time, unaccepted intermodal configurations, and lack of location.

Among the 2,189 responses collected, only **217 of them were considered valid**.
